

Between 12 and 14 October 2023, at International Fair Plovdiv was held **the 27th edition of the specialized exhibition 'Medicus, Dento, Galenia'.**

The exhibition in Pavilion 7 presented everything about modern diagnostics and therapy in the age of high technology.

MEDICUS, DENTO, GALENIA keeps reaffirming itself as the most authoritative exhibition for medicine, dentistry and pharmacy in Bulgaria. It creates the new vision of health care and helps to attract more investments in the sector.

MEDICUS, DENTO, GALENIA is a platform for interaction between science and business with the aim of new discoveries quickly entering practice in order to improve the quality of treatment and prevention.

PARTICIPANTS:

50 manufacturers, distributors and representatives of over 200 brands from the fields of medicine, dentistry and pharmacy.

- Manufacturers and distributors of medical, dental and laboratory equipment and supplies;
- Furniture, equipment and tools for dental offices and dental laboratories;
- Diagnostic and sterilization devices, products for prevention and oral hygiene;
- Work clothing and protective equipment;
- Software products for digitization of the treatment process in dentistry.

Medicus, Dento, Galenia 2023 showcased the innovations in the health industry.

The 27th edition showed **a lasting trend towards digitization of medical practices and management of medical equipment through convenient applications.**

Leading European companies and Bulgarian representatives offered laser technologies and instruments in the field of implantology, periodontology and oral surgery.

The premiere of a new type of self-adjusting passive braces and the latest generation of with immediate loading dental implants took place.

Medicus, Dento, Galenia presented **the latest dental X-ray devices and software technologies from a leader in dental imaging. Visitors were introduced to the 5-star X-ray system CS 9600 3D, winner of the BEST OF CLASS TECHNOLOGY AWARD.**

The exhibition included **the latest generation of lasers, professional binocular magnifying glasses and LED optical systems for them**, guaranteeing a crystal clear image with maximum detail and the possibility of individualization according to the type and method of work.

VISITORS

The 27th edition of Medicus, Dento, Galenia aroused the interest of more than **3,500 visitors**: owners of dental and medical cabinets and centers, managers and professionals from Bulgaria and its neighboring countries.

Medicus, Dento, Galenia brought together expertise, innovation, information and contacts. Thus, it promotes the interaction between science and business in order for new discoveries to quickly enter practice.

> In a special congratulatory address on the occasion of the 27th edition, the Minister for Health Prof. Dr. Hristo Hinkov highlighted the role of International Fair Plovdiv in organizing the event, which makes science and practice meet, builds contacts and develops partnerships in the field of medicine.
